

## Frames

The arrays of choices for wall accents are endless to create a pleasing to the eye sight. With the right choices of fixtures the ordinary four side walls are given life. Do not forget that the colour should also match with the other decorations inside the room. Frames hanging could add spice to the wall. There are also tricks and techniques that will help make the room big with the use of many wall accents. The frames inside the room should be a statement of who you are.

Frame ideas and tips:

- for traditional decorating style, wide ornate frames are recommended which reflects the old European architecture
- for contemporary decorating style, try metal or lacquered wood frames for your paintings to look thin
- wooden or metal frames in a variety of styles are best recommended for casual decorating style
- hanging of frames should be positioned at eye level or 6 to 10 inches above the furniture

Internet and lifestyle magazines are the best sources of ideas and best buys for home accents at reasonable prices.
